OBJECTIVE

Final year undergraduate student of computer science with experience working across the full stack of software development. Looking for a new role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

EDUCATION

BSc Computer Science | Bayero University Kano

2018 – 2023

(Current CGPA – 4.91)

Awards: Overall best student (CGPA 5.00), Department of CS, 2018/2019 Academic Session Level 200

ND Computer Science | Oyo State College of Agriculture and Tech, Igboora

2015 – 2017

(DISTINCTION – 4.68)

EXPERIENCE

Backend Developer Intern | AFEX, Ibadan

MAY 2022 – November 2022

- Developed a fully-fledged ecommerce website using Django and Postgres on the backend as well as HTML, CSS and JS frontend technologies
- Co-developed a social media app called 'ShareIt' using Django
- Collaborated with colleagues on project designs, Implementations and troubleshooting

Web Developer | Generis Ivy Schools

MAY 2021 – MARCH 2022

- Developed an online food ordering system using Node, Express, MongoDB, and HTML and CSS that allowed customers to order food from the restaurant online
- Developed a travels and tours booking system using Node, Express, MongoDB, and HTML and CSS that allowed travelers to book their favorite tour locations
- Used scikit-learn in Python that learned spam-messages identification from non-spam ones

Student Intern | Edawah Technologies, Ibadan

JUNE 2016 – OCTOBER 2016

- Carried out multimedia files editing, video creation and wrote subtitles for videos using tools such Adobe Premiere
- Developed websites using the Drupal CMS while working with different packages
